**FOUNDED BY GRACIE & BOB CAVNAR** in 2005 to combat childhood obesity by changing the way children eat, Recipe for Success Foundation developed a comprehensive program to teach Houston elementary students how to cultivate, harvest, and cook their own healthy meals. Over 80 high-profile Houston chefs have volunteered their time to help. The only initiative in the country of its scope, the award-winning RFS Seed-to-Plate Nutrition Education™ integrated classes have introduced more than 16,000 children to the entire cycle of food along with taste and flavor combinations, techniques and lifelong skills that empower them to prepare healthy meals and snacks for themselves. RFS efforts delivered proven results.

After just six years RFS has grown to serve six Houston area school districts and answered the call from the federal administration to take their Seed-to-Plate Nutrition Education™ to a national scale. Now, licensed RFS Affiliate Partners are sustained by training, certification and support for S2P instructors, which is provided via an e-learning website. Geographic impediments have been erased. Hundreds of schools from coast to coast are stepping up to the plate to change the way their children eat. It's a Recipe for Success.
